## Poliform night collection

Variety is the word to define the collection: thirteen different proposals, thirteen ideas for the night area; functionality, design and emotions are joined together in beds with a strong personality. To complete the choice there are "dedicated" containers, coherent in style, along with one multipurpose serie, which can be freely combined. Conceived to really satisfy any resting requirements, this system includes also mattresses, pillow and complements.

## Abbinabili Containers, design CR&S Poliform, 1991

The collection offers a further possibility to realise the fitting of one's own universe for the night zone, following one's own taste and organising the ambience in an enlightened way.

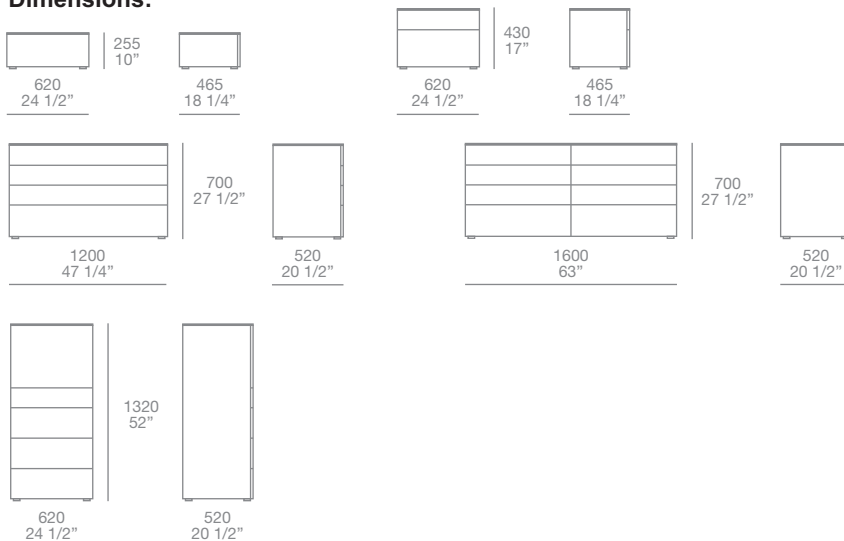

The functionality and the rigorous shape make it possible for this collection to match easily with all Poliform beds. The elements of the collection, used also alone, can be placed in every room of a house as they contribute to personalise every room.
