

My planet

design CR&S Varenna 2008

My Planet: this kitchen interprets the widespread desire for practicality and elegance. A sensation suggested by new components such as handles and countertops of various thicknesses, the use of light equipped panels and white and dark pine finishes. Technically evolved solutions and fundamental design components that guarantee original compositions for even the smallest of kitchens.

Kitchens collection

The Varenna collection interprets the contemporary kitchen in its entire variety. The maximum freedom in compositions enables original proposals, which are defined by a wide range of materials, finishes and colours. The idea of a kitchen as a planned space in order to reflect the individuality of who lives in: the avant-garde technical solutions and an always more personal stylistic choice are aligned with the idea of a home project that distinguishes Poliform conception of a contemporary house.
