

Twelve

design Carlo Colombo, 2009

Twelve, the research of a new essential design with minimal horizontal thicknesses and maximum wideness of the surfaces. Primary volumes characterized by the absence of handles interpret different stylistic values thanks to an exceptional variety of finishes and materials.

Kitchens collection

The Varenna collection interprets the contemporary kitchen in its entire variety. The maximum freedom in compositions enables original proposals, which are defined by a wide range of materials, finishes and colours. The idea of a kitchen as a planned space in order to reflect the individuality of who lives in: the avant-garde technical solutions and an always more personal stylistic choice are aligned with the idea of a home project that distinguishes Poliform conception of a contemporary house.
