Poliform

# ARCHITECTURAL

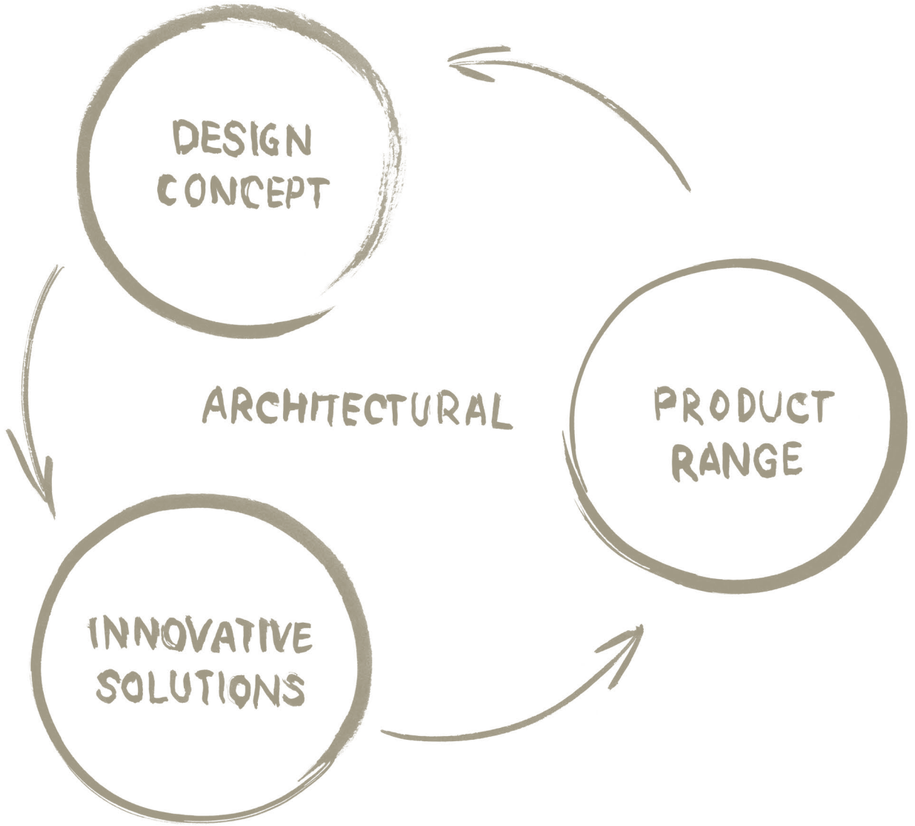

Poliform

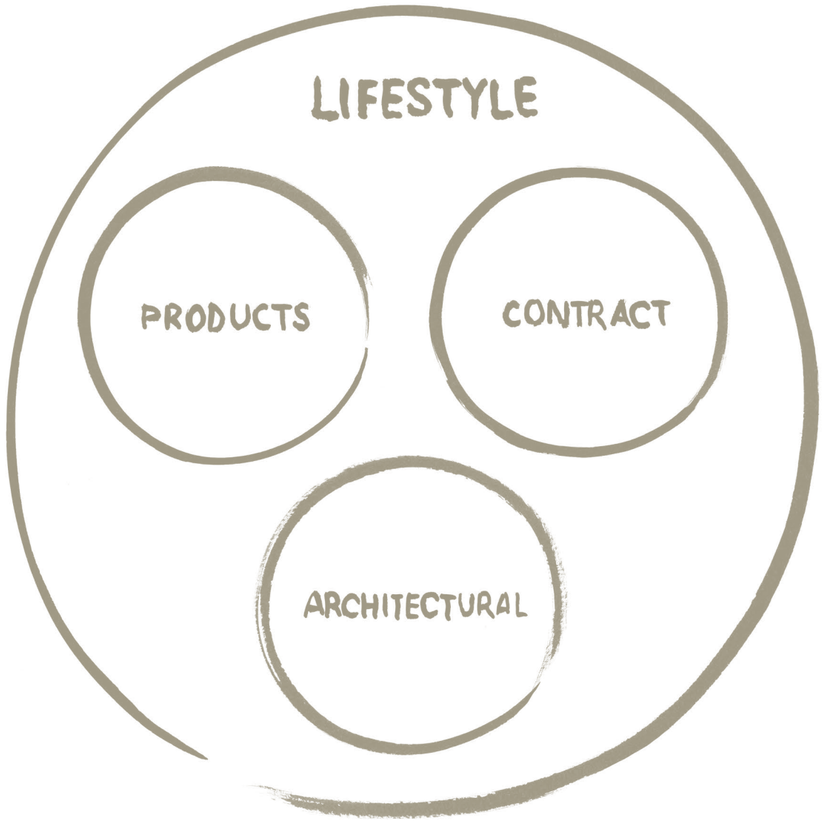

Poliform presenta Architectural, un progetto che ha l'ambizioso obiettivo di portare l'interior design a un altro livello. Le proposte di Architectural si rivolgono a un mercato evoluto, pronto a leggere l'ambiente domestico come uno spazio fluido dove sistemi e arredi, perfettamente integrati, danno vita a un'architettura totale.

Poliform presents Architectural, a project that has the ambitious goal of taking interior design to another level. Architectural's proposals are aimed at an advanced market, ready to interpret the domestic environment as a fluid space where systems and furnishings, perfectly integrated, give life to a total architecture.

Architectural definisce un impegno preciso nel rapporto con il mondo della progettazione di interni, nell'ottica di un'architettura totale. Al servizio di architetti e interior designer, è un concept nato per offrire una libertà progettuale senza precedenti, un sistema di elementi con cui creare soluzioni innovative.

Architectural defines a clear commitment to the world of interior design, with a focus on total architecture. At the service of architects and interior designers, it is a concept created to offer unprecedented design freedom, a system of elements with which to create innovative solutions.

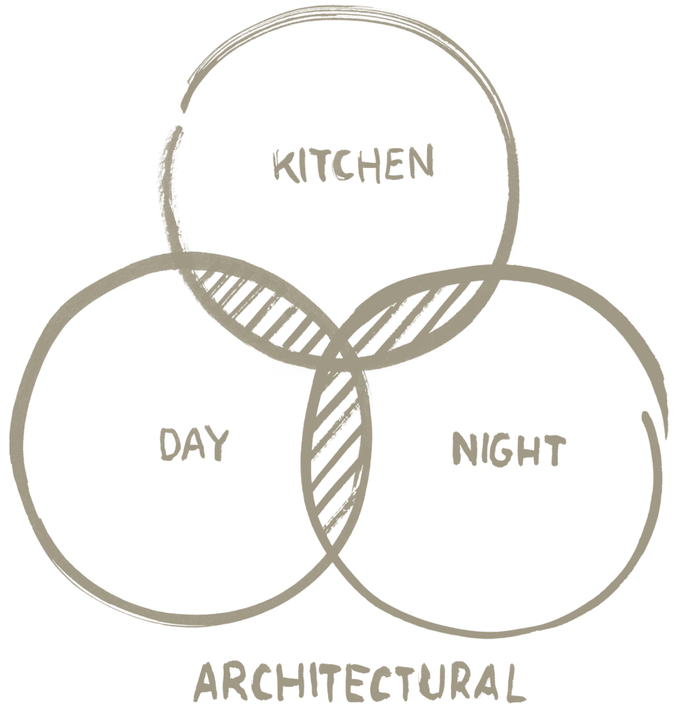

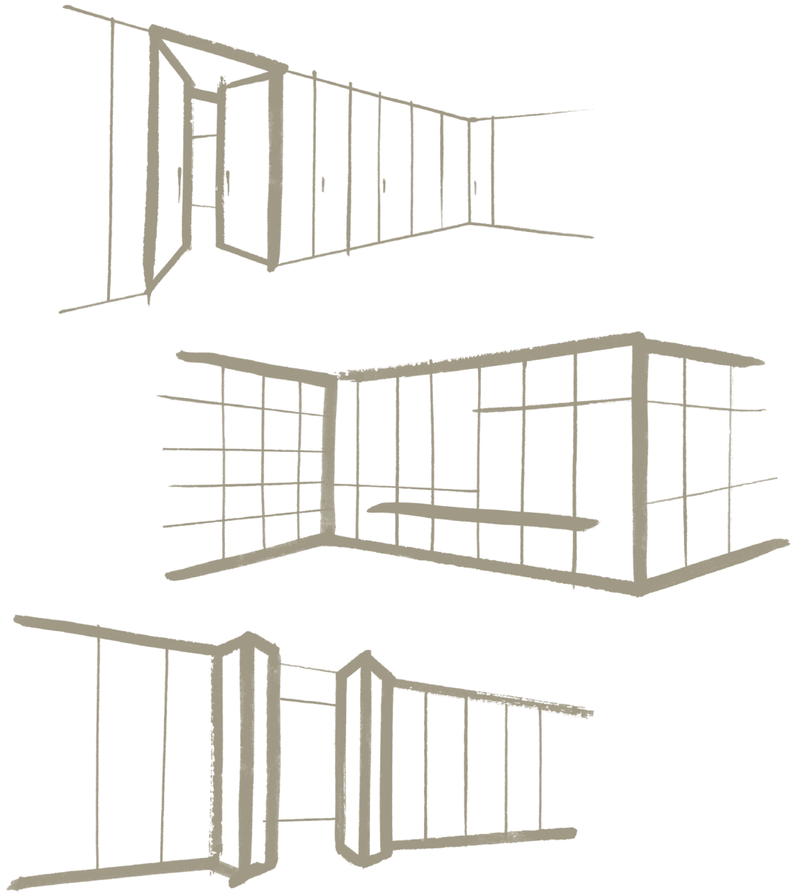

Nato da anni di confronti con i migliori architetti internazionali, e dall'analisi costante di Poliform Lab sulle tendenze dell'abitare contemporaneo, Architectural unisce la qualità delle collezioni di arredi a quella delle realizzazioni su misura, esprimendo pienamente la dimensione lifestyle del brand.

The result of years of discussions with top international architects and Poliform Lab's constant analysis of contemporary living trends, Architectural combines the quality of the furniture collections with that of made-to-measure creations, fully expressing the lifestyle dimension of the brand.

La configurazione dell’ambiente domestico è interpretata alla luce di un’architettura flessibile e leggera in cui i sistemi non solo si integrano completamente, ma creano nuovi spazi. Architectural rappresenta l’anello di congiunzione delle collezioni Night System, Day System e Kitchen.

The configuration of the domestic environment is interpreted in the light of a flexible and lightweight architecture in which the systems not only integrate completely, but also create new spaces. Architectural is the link between the Night System, Day System and Kitchen collections.

Con gli elementi di Architectural – aperture, boiserie e pannelli interparete – si mettono a punto progetti completi, dove la continuità estetica tra gli ambienti è talmente perfetta da avvicinarsi a una realizzazione artigianale. Precisione tecnica e performance di alto livello sono assicurate dalla produzione industriale.

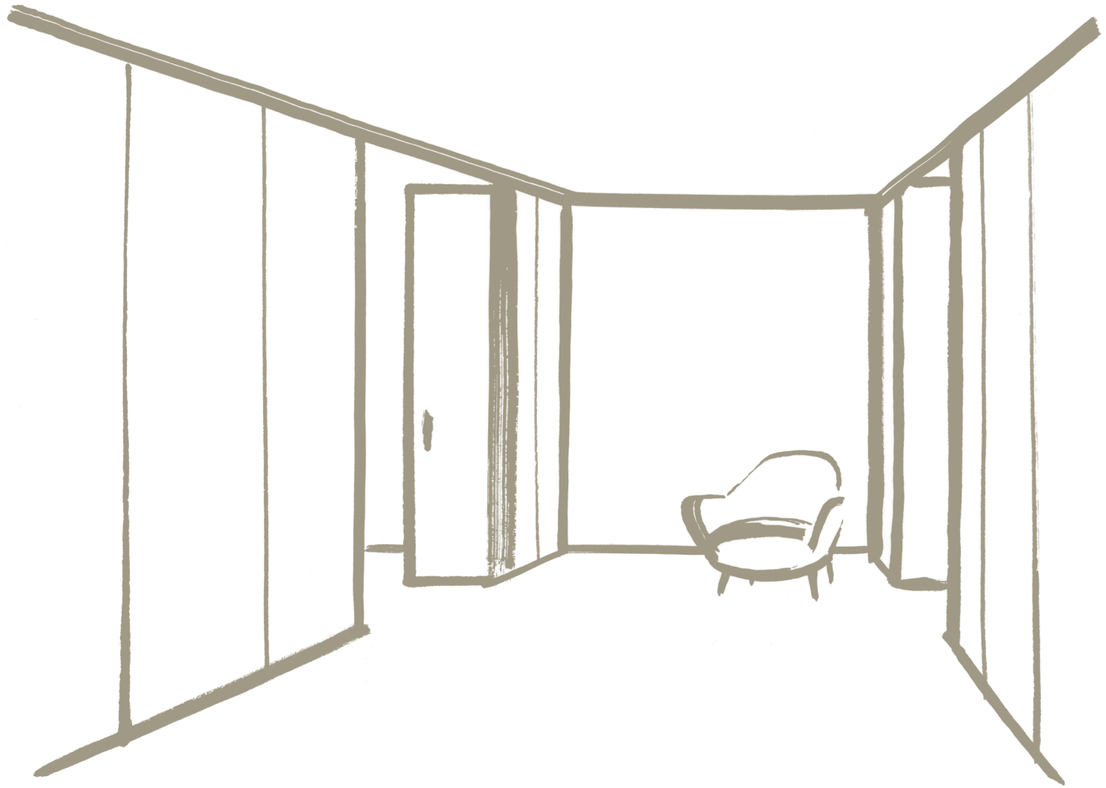

With the elements of Architectural – openings, panelling and dividing wall panels – complete projects are developed, where the aesthetic continuity between the rooms is so perfect that it comes close to handcrafted. Technical precision and high-level performance are ensured by industrial production.

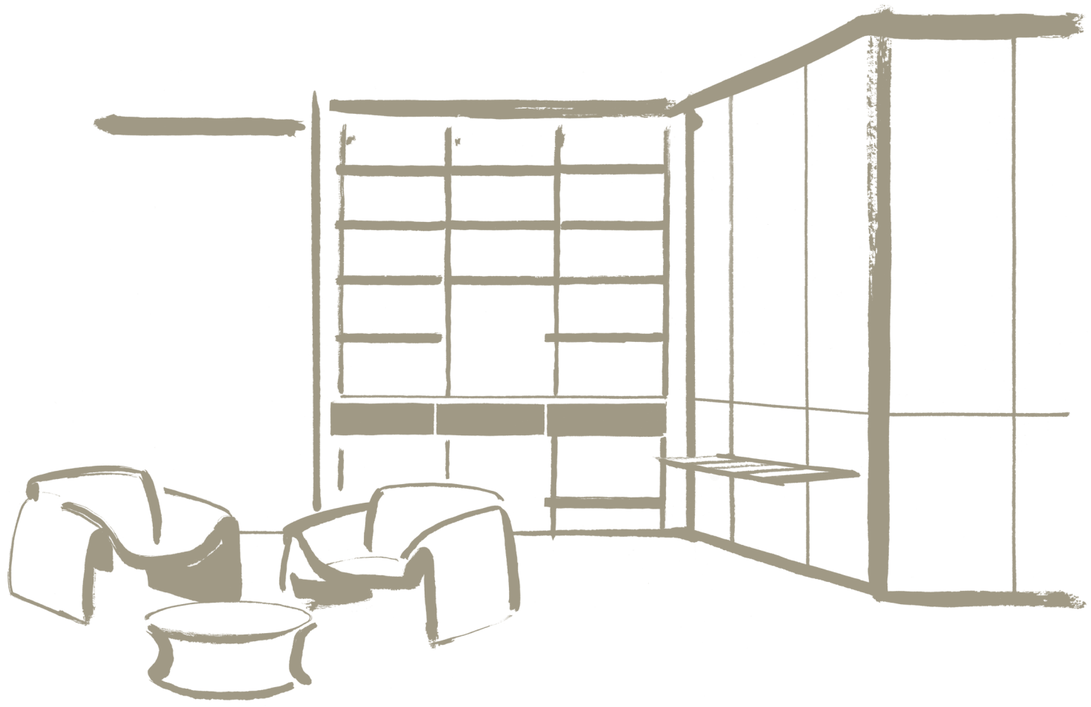

Il talento di Poliform è il saper fare, una capacità che unisce cultura e conoscenza e che, prima di essere un gesto, è un'idea di progettazione. Con Architectural, Poliform trascende la dimensione dell'arredamento per creare architetture leggere e flessibili che rispondono alle esigenze più attuali dell'abitare.

Poliform's talent is know-how, a skill that combines culture and knowledge and which, before being a concept, is a design idea. With Architectural, Poliform transcends the dimension of furniture to create lightweight, flexible architecture that responds to the latest living requirements.

Lo spazio domestico è fatto di connessioni. Connessioni tra gli ambienti, tra gli oggetti e lo spazio, tra le persone. Per collegare gli ambienti in modo funzionale ci sono le porte pivotanti, dove finiture e maniglie sono identiche a quelle degli armadi, per un'uniformità estetica totale.

The domestic space is composed of connections. Connections between environments, between objects and space, between people. To connect the rooms in a functional way, there are pivoting doors, where finishes and handles are identical to those of the wardrobes, for total aesthetic uniformity.

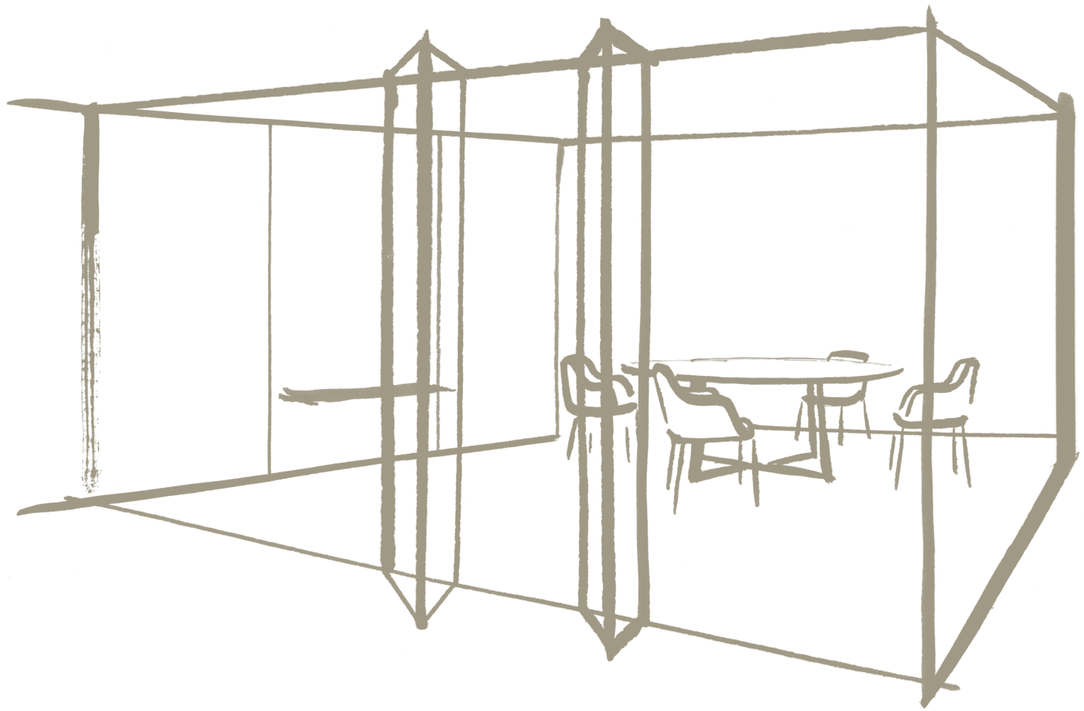

L’idea di casa passa attraverso la costruzione di spazi che si adattano a gusti, abitudini e stili di vita. Grazie alla boiserie, il retro di cucine, armadi e librerie si adatta all’ambiente, diventando una parete da attrezzare in base alle proprie esigenze.

The idea of home passes through the construction of spaces that adapt to tastes, habits and lifestyles. Thanks to the panelling, the back wall of kitchens, wardrobes and bookcases adapts to the environment, becoming a wall to be equipped in accordance with individual needs.

L'architettura è creazione di spazi dotati della qualità della permanenza. Ma se diventa leggera, può dare vita ad ambienti più flessibili, superando il concetto di costruzione tradizionale a favore della progettazione libera di spazi su misura.

Architecture is the creation of spaces with the quality of permanence. But if it becomes lightweight, it can create more flexible environments, overcoming the concept of traditional construction in favour of freely designed, made-to-measure spaces.

I sistemi nascono sempre ispirandosi a principi di organizzazione e integrazione. Architectural ne offre un'interpretazione contemporanea, dove attrezzature, TV e vani tecnici uniscono funzionalità e discrezione.

The systems are always inspired by principles of organisation and integration. Architectural offers a contemporary interpretation, where fittings, TVs and technical compartments combine functionality and discretion.

# PIVOT DOOR SYSTEM

Pivot è un sistema di aperture pivotanti integrate ai sistemi Poliform. Con finiture e maniglie che riprendono quelle degli armadi della collezione Night System e delle ante della collezione Kitchen, Pivot assicura una perfetta continuità visiva.

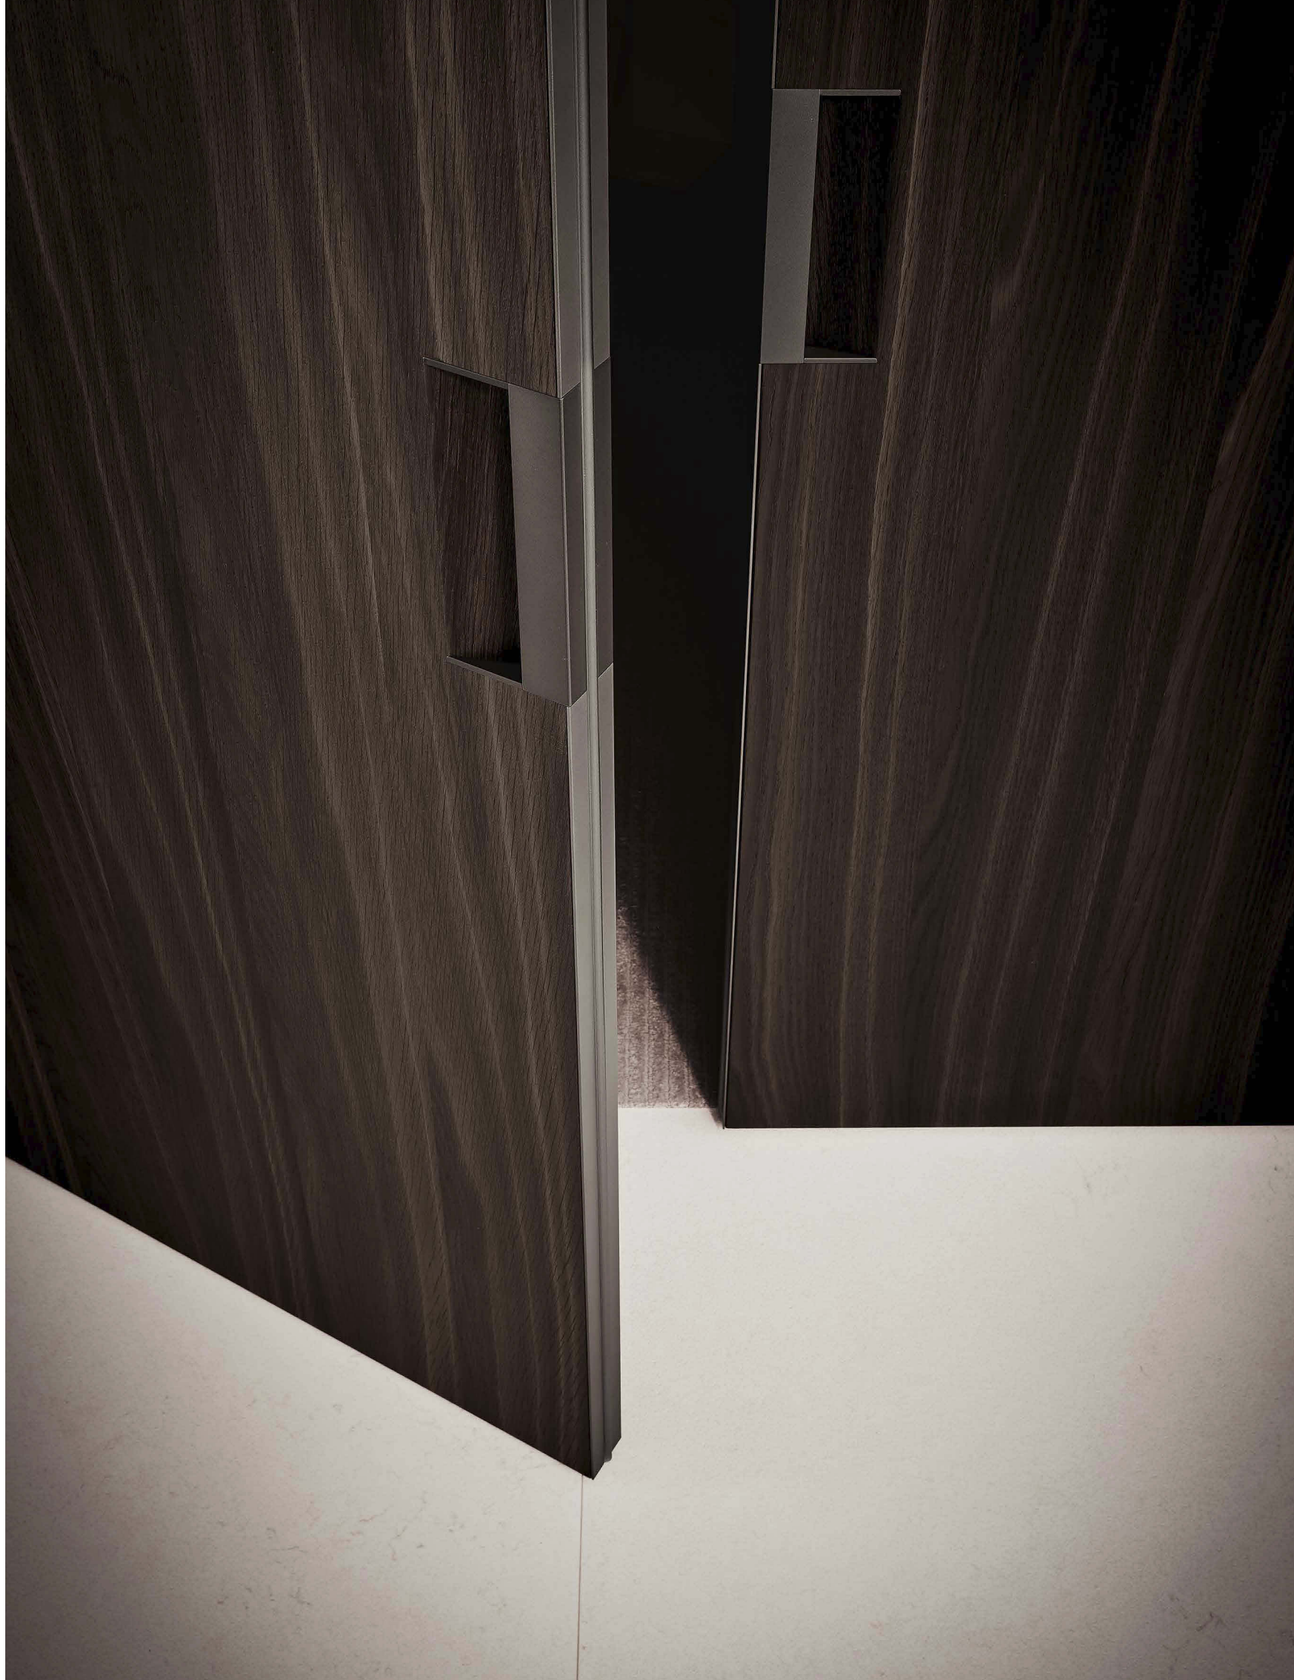

Pivot is a system of pivoting openings integrated with Poliform systems. With finishes and handles that recall those of the Night System wardrobes collection and the Kitchen collection doors, Pivot ensures perfect visual continuity.

Nella zona notte, Pivot si integra al sistema di armadi Senzafine. Sia la porta Pivot Plus sia le ante dell'armadio sono in rovere spessart con telaio e maniglia Plus in ardesia opaco.

In the sleeping area, Pivot integrates with the Senzafine wardrobe system. Both the Pivot Plus door and the wardrobe doors are in spessart oak with Plus frame and handle in mat ardesia.

Nel disimpegno, le porte Pivot Plus in rovere spessart si abbinano all'armadio Senzafine Cover in tessuto lino chiaro, con maniglie e profili in champagne opaco.

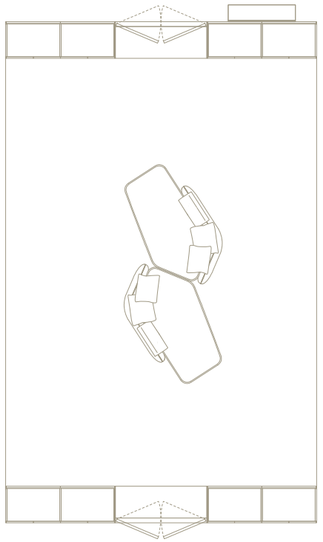

In the bedroom hallway, the Pivot Plus doors in spessart oak match the Senzafine Cover wardrobe upholstered in lino chiaro fabric, with mat champagne handles and profiles.

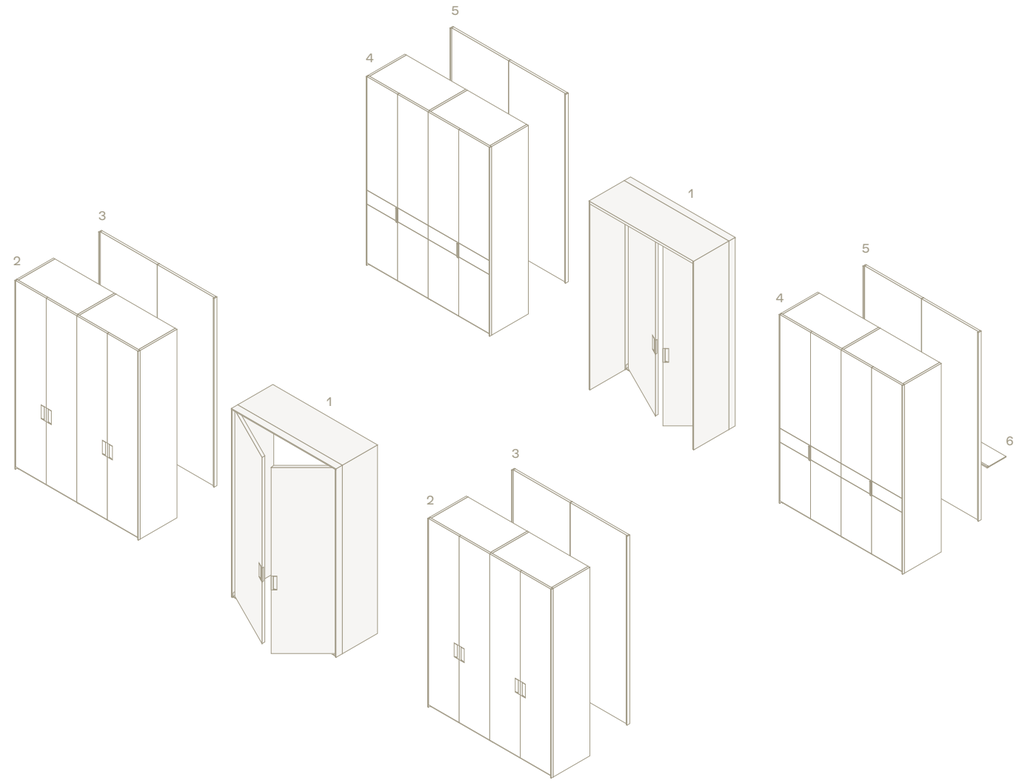

## PIVOT
## WARDROBE AREA

1 Porta Pivot Plus, portale rovere spessart e telaio ardesia opaco, porta rovere spessart con maniglia Plus e profili ardesia opaco.
2 Armadio Senzafine Plus, apertura battente, ante rovere spessart con maniglia Plus ardesia opaco, sagoma fianco rovere spessart.
3 Boiserie Surface tessuto lino chiaro e profili champagne opaco, sagoma di finitura champagne opaco.
4 Armadio Senzafine Cover, apertura battente, ante tessuto lino chiaro con maniglia Fitted champagne opaco, sagoma fianco champagne opaco.
5 Boiserie Surface rovere spessart e profili ardesia opaco, sagoma di finitura rovere spessart.
6 Mensola Code laccato metallico bronzo, luce a led, profili ardesia.

1 Pivot Plus door, spessart oak portal and mat ardesia frame, spessart oak door with Plus handle and profiles mat ardesia.
2 Wardrobe Senzafine Plus, leaf opening, spessart oak doors with mat ardesia Plus handle, profile of the side spessart oak.
3 Surface wall panelling in fabric lino chiaro and mat champagne profiles, mat champagne finishing profile.
4 Wardrobe Senzafine Cover, leaf opening, doors fabric lino chiaro with mat champagne Fitted handle, profile of the side mat champagne.
5 Surface wall panelling in spessart oak and mat ardesia profiles, spessart oak finishing profile.
6 Code shelf in metal lacquer bronzo, led light, ardesia profiles.

In cucina, Pivot si integra alle colonne della Kitchen Collection. La porta Pivot Plus è in vetro riflettente fumé, mentre la maniglia Plus, il portale e il telaio sono in moka opaco, la stessa finitura usata per i dettagli della cucina.

In the kitchen, Pivot complements the tall units of the Kitchen Collection. The Pivot Plus door is in reflecting fumé glass, while the Plus handle, door, and frame are in mat moka, the same finish used for the kitchen details.

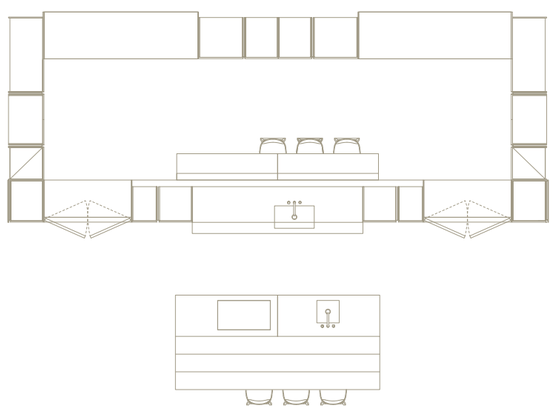

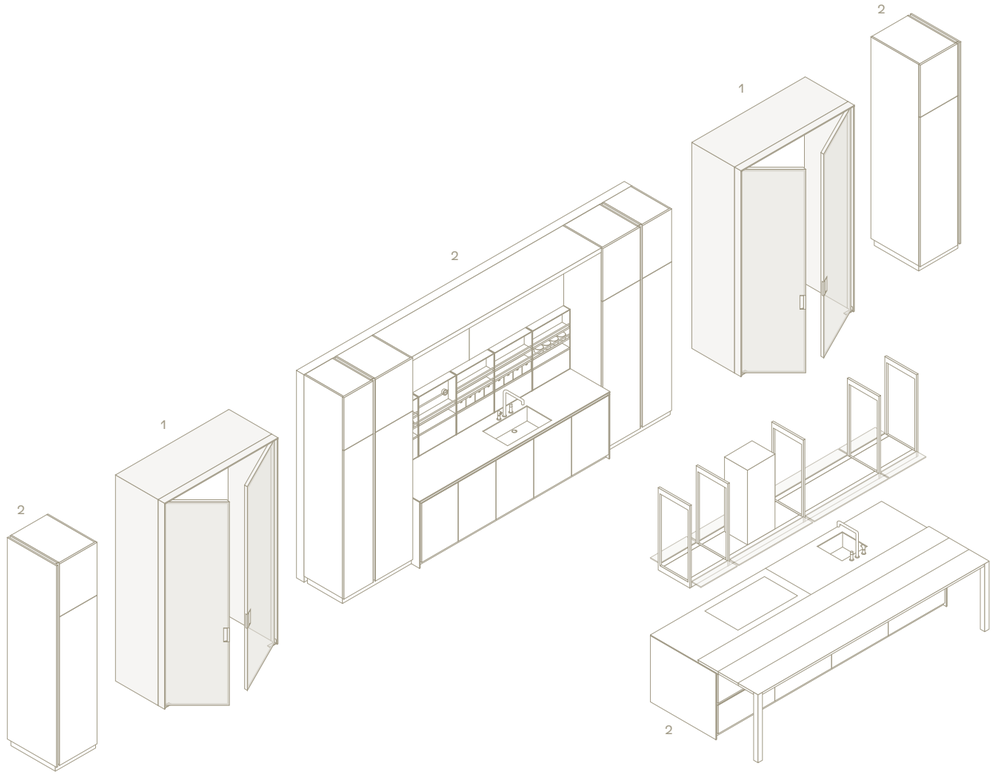

## PIVOT
## KITCHEN AREA

1 Porta Pivot Plus vetro, portale e telaio laccato goffrato moka, porta vetro riflettente fumé con maniglia Plus e telaio moka opaco.

Isola centrale e basi con ante, fianchi di finitura e top in Inalco MDi® stone brown, profilo maniglia, sagoma e distanziali in anodizzato moka. Schienale sopra basi attrezzato con Deep Shaker in anodizzato moka e schienali in Inalco MDi® stone brown, mensola superiore in laccato goffrato moka. Piano snack Blade in massello di noce canaletto. Sistema modulare Infinity personalizzato Poliform con modulo aspirante luminoso e moduli luminosi, finitura acciaio scotch brite e vetro fumé.

1 Pivot Plus glass door, moka embossed lacquered portal and frame, door in fumé reflecting glass with Plus handle and frame mat moka.
2 Alea Pro kitchen, tall units with doors in PVD steel bronzo, moka anodized spacers and finishing sides. Central island and base units with doors, finishing sides and top in Inalco MDi® stone brown, moka anodized handle profile, profile and spacers. Back above base units accessorized with moka anodized Deep Shaker and backs in Inalco MDi® stone brown, upper shelf in moka embossed lacquer. Blade snack top in solid walnut canaletto. Poliform personalized Infinity modular system with lighted extractor module and lighted modules, finish scotch brite steel and fumé glass.

# SURFACE BOISERIE SYSTEM

Surface è un sistema di boiserie per il rivestimento di pareti, retro di armadi e interpareti in continuità estetica. Con Surface, con cui si progettano configurazioni angolari e intercapedini attrezzate, Poliform trasforma un semplice rivestimento in un elemento architettonico capace di esprimere lo spazio al massimo delle sue potenzialità.

Surface is a panelling system for cladding walls, the backs of wardrobes and partitions, providing aesthetic continuity. With Surface, which can be used to design corner configurations and furnished spaces, Poliform transforms a simple wall covering into an architectural element capable of expressing space to its full potential.

Grazie al profilo per angolo aperto, con la boiserie Surface si realizzano anche composizioni angolari. Nell'integrazione con l'armadio Senzafine si crea un angolo home office appartato e discreto. Surface è in tessuto lino chiaro con profili champagne opaco; stesse finiture per l'armadio Senzafine Cover con apertura battente.

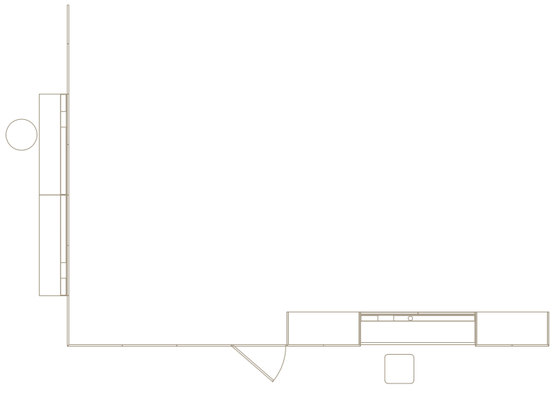

Thanks to the open corner profile, Surface panelling can also be used to create corner compositions. Integration with the Senzafine wardrobe creates a secluded and discreet home office corner. Surface is in lino chiaro fabric with mat champagne profiles; the same finishes are used for the Senzafine Cover wardrobe with leaf opening.

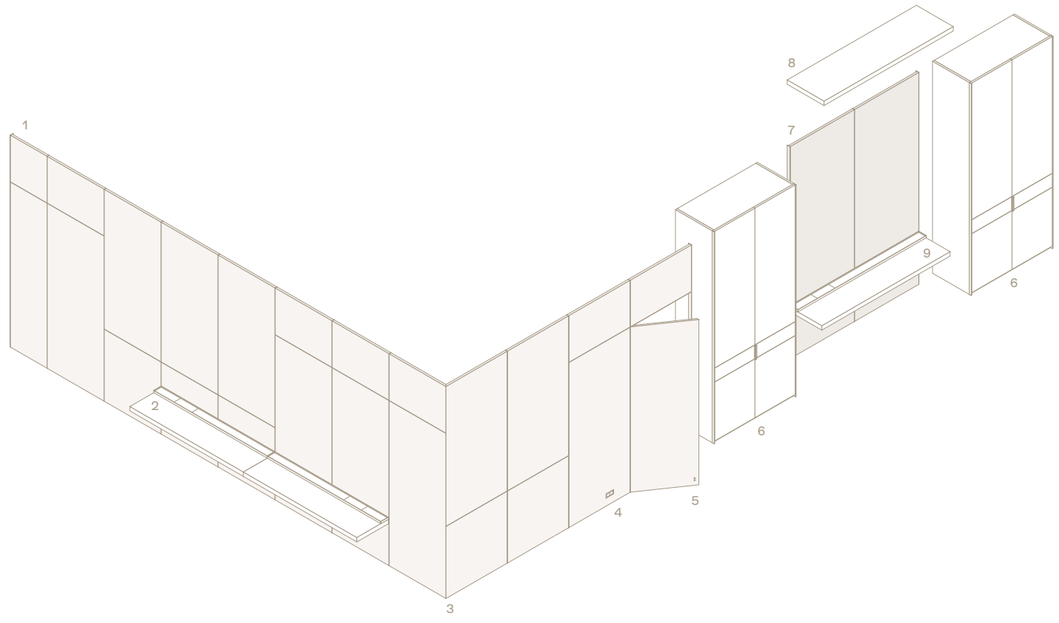

## SURFACE
## DAY AREA 1

1 Boiserie Surface tessuto lino chiaro, profili champagne opaco.
2 Mensolone sospeso Code olmo nero, canalina ardesia opaco, luce a led.
3 Boiserie Surface, profilo per angolo aperto.
4 Presa elettrica, finitura champagne.
5 Boiserie Surface, porta ispezionabile.
6 Armadio Senzafine Cover, apertura battente, ante tessuto lino chiaro con maniglia Fitted champagne opaco, sagoma fianco tessuto lino chiaro, fianco laterale rovere spessart.
7 Boiserie Surface rovere spessart, profili ardesia opaco.
8 Coperchio Code, rovere spessart, luce a led, profili ardesia.
9 Mensolone sospeso Code, rovere spessart, canalina champagne opaco, luce a led.

1 Surface wall panelling fabric lino chiaro, mat champagne profiles.
2 Code hanging thick shelf in black elm, mat ardesia channel, led light.
3 Surface wall panelling, profile for open corner.
4 Electric socket, finish champagne.
5 Surface wall panelling, service opening.
6 Wardrobe Senzafine Cover, leaf opening, doors in fabric lino chiaro with mat champagne Fitted handle, side profile in fabric lino chiaro, lateral side in spessart oak.
7 Surface wall panelling in spessart oak, mat ardesia profiles.
8 Code top shelf, spessart oak, led light, ardesia profiles.
9 Code hanging thick shelf, spessart oak, mat champagne channel, led light.

Nella zona giorno, la boiserie Surface, attrezzata con mensolone Code, disegna delle nicchie in cui integrare la libreria Lexington. Tre le finiture della composizione: tessuto lino scuro, Inalco MDi® rigato scuro e olmo nero, sempre con profili in ardesia opaco, come i montanti del sistema Lexington.

In the living area, the Surface panelling, equipped with a Code shelf, creates niches in which the Lexington bookcase can be integrated. There are three finishes for the composition: lino scuro fabric, rigato scuro Inalco MDi® and black elm, again with profiles in mat ardesia, like the uprights of the Lexington system.

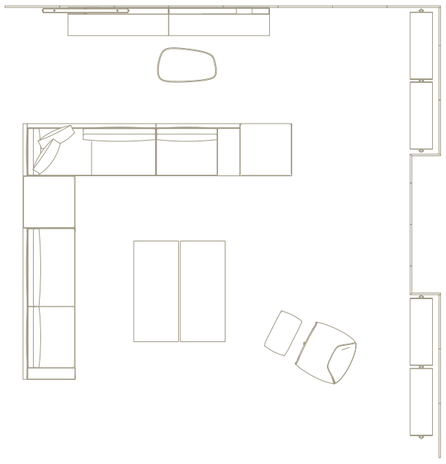

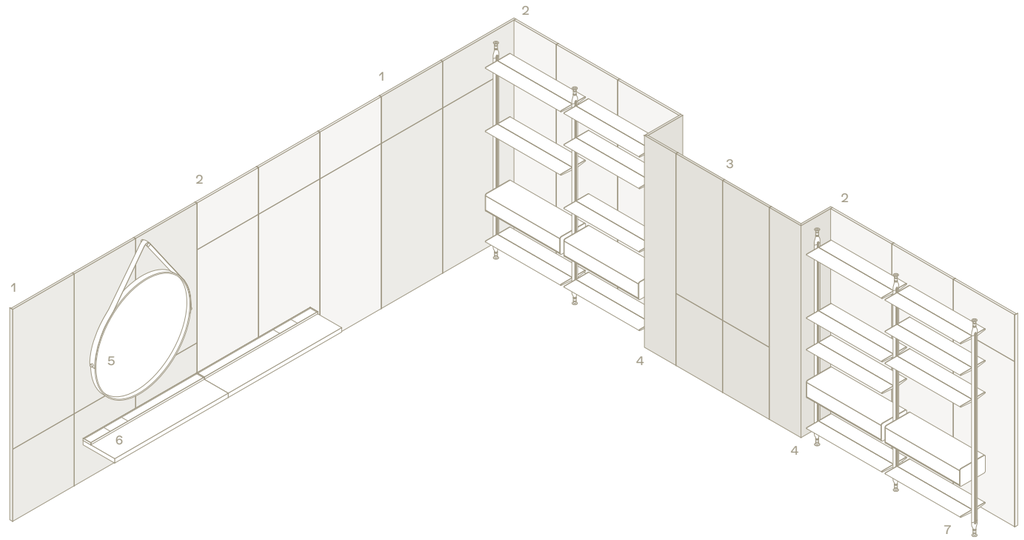

## SURFACE
## DAY AREA 2

1 Boiserie Surface tessuto lino scuro, profili ardesia opaco.
2 Boiserie Surface in Inalco MDi® rigato scuro, profili ardesia opaco.
3 Boiserie Surface olmo nero, profili ardesia opaco.
4 Boiserie Surface, profilo per angolo aperto.
5 Specchio Drop, cornice cuoio nero e specchio bronzato.
6 Mensolone sospeso Code olmo nero, canalina ardesia opaco, luce a led.
7 Libreria Lexington, montanti a soffitto olmo nero e ardesia opaco con piedini di regolazione in nickel ardesia, luce a led. Ripiani e contenitori con anta a ribalta, olmo nero e ardesia opaco.

1 Surface wall panelling in fabric lino scuro, mat ardesia profiles.
2 Surface wall panelling in Inalco MDi® rigato scuro, mat ardesia profiles.
3 Surface wall panelling in black elm, mat ardesia profiles.
4 Surface wall panelling, profile for open corner.
5 Drop mirror, black hide frame and bronzed mirror.
6 Code hanging thick shelf in black elm, mat ardesia channel, led light.
7 Lexington bookshelf, floor to ceiling uprights in black elm and mat ardesia with adjustment feet in nickel ardesia, led light. Shelves and storage units with flap door, black elm and mat ardesia.

Nell’area guardaroba, la boiserie Surface e la porta Pivot Plus sono usate in combinazione con la cabina armadio Lexington. La boiserie Surface è usata sia a copertura del retro degli armadi, in finitura lino chiaro, sia come schienale del sistema Lexington, in rovere spessart come la porta Pivot. A centro stanza, Surface dà vita all’area specchi e vanity.

In the wardrobe area, the Surface panelling and Pivot Plus door are used in combination with the Lexington walk-in wardrobe. The Surface panelling is used both to cover the back of the wardrobes, in lino chiaro finish, and as a back of the Lexington system, in spessart oak like the Pivot door. In the middle of the room, Surface brings the mirrors and vanity area to life.

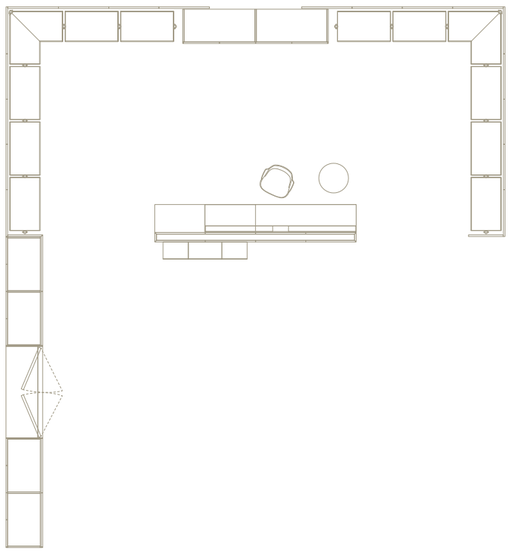

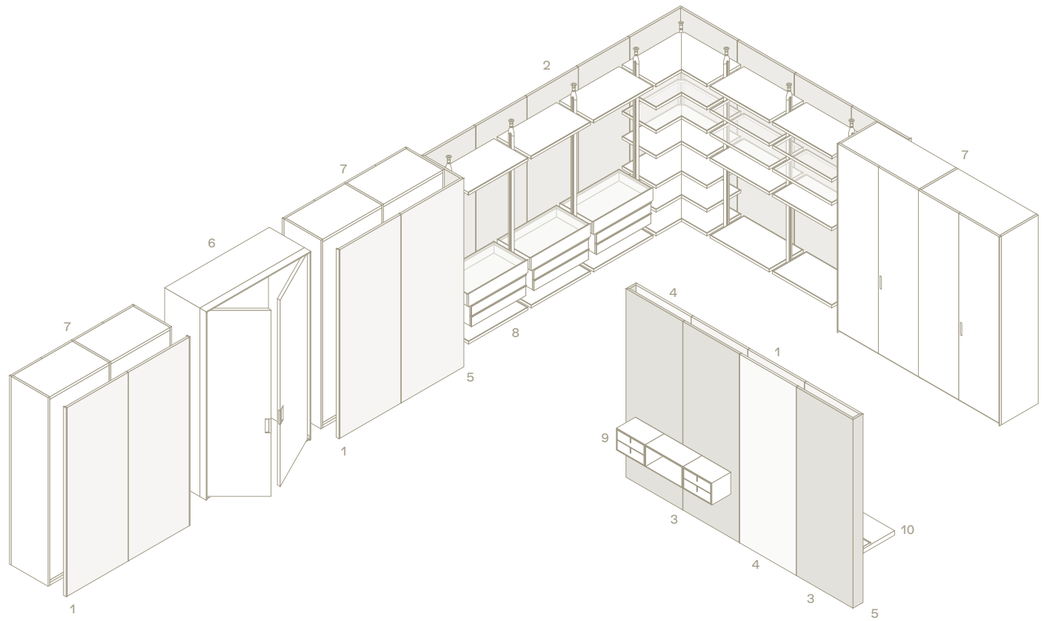

## SURFACE
## WARDROBE AREA

1 Boiserie Surface tessuto lino chiaro, profili champagne opaco.
2 Boiserie Surface rovere spessart, profili ardesia opaco.
3 Boiserie Surface rovere spessart print, profili ardesia opaco.
4 Boiserie Surface specchio bianco.
5 Boiserie Surface, profilo per angolo aperto.
6 Porta Pivot Plus, portale rovere spessart e telaio ardesia opaco, porta rovere spessart con maniglia Plus ardesia opaco.
7 Armadi Senzafine.
8 Cabina armadio Lexington, montanti a soffitto champagne opaco, luce a led. Ripiani rovere spessart, vetro fumé, tecnocover Grain latte telaio e frontali champagne. Cassettiera vetrina laccato opaco champagne con piano superiore vetro fumé, cassetti inferiori vetro riflettente fumé con maniglia Track e bordo champagne opaco. Tubi appendiabiti tecnocover Grain latte e champagne opaco.
9 Bacheche Quid laccato opaco bronzo, cassettini cuoio tortora, schienale vano a giorno specchio bianco.
10 Mensolone sospeso Code rovere spessart, canalina ardesia opaco, luce a led, contenitori con vano a giorno laccato opaco bronzo.

SURFACE BOISERIE SYSTEM 118

# PIVOT DOOR SYSTEM

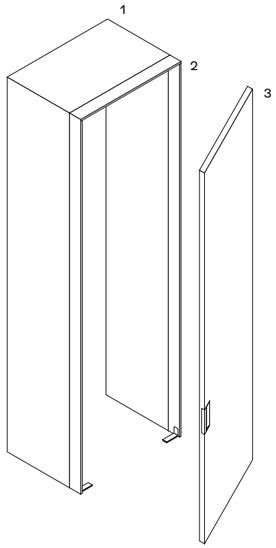

Design R&D Poliform

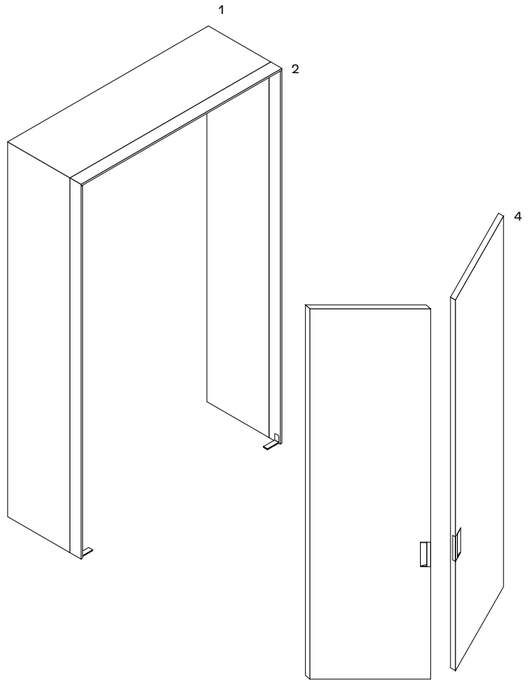

Pivot è un sistema di porte singole o doppie, apertura a bilico, composte da un portale che si integra con gli armadi del sistema Senzafine e i pannelli boiserie Surface sul lato opposto o con le colonne della collezione cucine. La porta a bilico è una porta che si apre e chiude ruotando attorno ad un asse verticale costituito da due perni.
Al portale viene fissato nella parte anteriore o posteriore il telaio per l'aggancio della porta.

1 Portale
2 Telaio metallico comprensivo di cerniere a bilico
3 Porta singola
4 Porta doppia

Pivot is a system of single or double doors, pivot opening, composed by a portal integrated with the wardrobes of the Senzafine system and the Surface wall panels on the opposite side or with the tall units of the kitchen collection. The pivot door is a door which opens and closes by rotating around a vertical axis consisting of two pins.
A frame for the door fixing is applied to the front or rear part of the portal.

# SURFACE BOISERIE SYSTEM

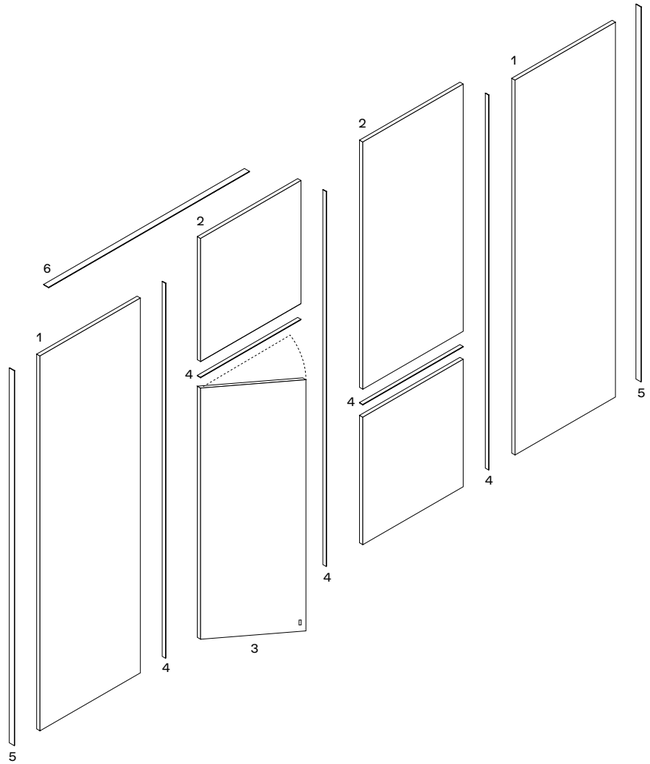

Design R&D Poliform

Surface è un sistema boiserie per rivestire pareti e retro armadi in modo continuo.
La boiserie si può attrezzare con i componenti del sistema giorno e notte Code ed è integrabile con gli armadi Senzafine e le porte Pivot.
Il sistema prevede staffe di fissaggio a muro (ingombro mm 15) per l'aggancio dei pannelli distanziati da profili in alluminio verniciato. I pannelli sono dotati di piedini di regolazione a terra e di profili di chiusura verticali o orizzontali.
Possibilità di composizioni con pannelli sovrapposti anche a misura e di soluzioni per angoli chiusi o aperti.
La boiserie Surface è disponibile in diversi materiali e finiture, i profili sono verniciati ardesia o champagne opaco.

1 Boiserie ad altezza unica pannelli spessore 30
2 Boiserie sovrapposte
3 Boiserie ispezionabile, (escluso retro armadio), maniglia ardesia o champagne
4 Profili in alluminio mm 4, profondità 30
5 Profili di chiusura verticali in alluminio mm 4, profondità 45
6 Profilo di chiusura orizzontale mm 4, profondità 45, per boiserie con altezza inferiore o uguale a 1950

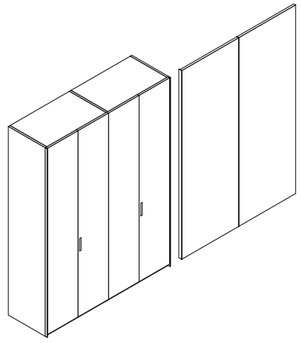

Surface is a wall panelling system to cover the walls and the backs of the wardrobes in a continuous way. The wall panelling can be accessorized with the components of the Code day and night system and can be integrated with the Senzafine wardrobes and the Pivot doors. The system works with wall fixing brackets (thickness 1/2") to hang the panels with painted aluminium profiles between each panel. Panels are supplied with adjustment feet to the floor and with vertical and horizontal closing profiles. It is possible to superimpose the panels, also in customized size and solutions for corners and open corners are available, too. Surface wall panelling is available in several materials and finishes, the profiles are painted in mat ardesia or champagne.

1 Wall panelling in one piece panels thickness 1 1/4"
2 Superimposed wall panelling
3 Wall panelling with service opening (except for wardrobe back), ardesia or champagne handle
4 Aluminium profiles 1/8", depth 1 1/4"
5 Vertical closing profiles in aluminium 1/8", depth 1 3/4"
6 Horizontal closing profile 1/8", depth 1 3/4", for wall panelling with height less than or equal to 76 3/4"

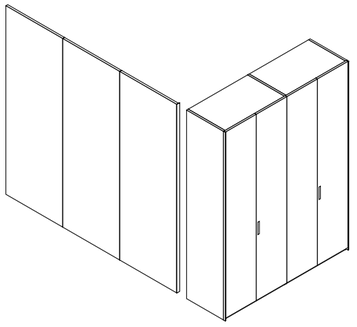

**Boiserie in accostamento all' armadio**
**Wall panelling next to the wardrobe**

La boiserie può essere accostata a filo ante di un armadio Senzafine, in accostamento il fianco dell'armadio deve avere la sagoma e il pannello boiserie il profilo mm 4.

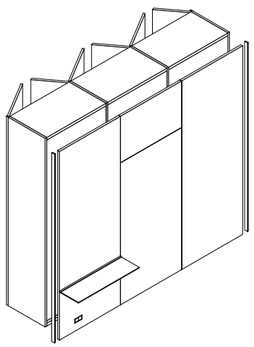

Wall panelling can be installed flush with the doors of a Senzafine wardrobe, in this case the wardrobe side must have the profile and the wall panel must have the 1/8" profile.

La boiserie può essere accostata al fianco di un armadio Senzafine, in accostamento il pannello boiserie deve avere il profilo mm 4.

Wall panelling can be installed next to the side of a Senzafine wardrobe, in this case the wall panel must have the 1/8" profile.

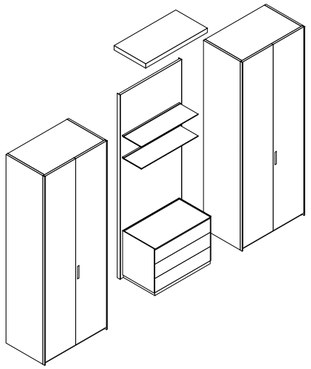

**Boiserie retro armadio**
**Wall panelling to the back of the wardrobe**

La boiserie ad altezza unica o sovrapposta, può essere attrezzata con le mensole Code con e senza luce a led (p 280-300, spessore 8) o con il modulo di cablaggio per una presa elettrica o due prese usb.
I pannelli boiserie devono essere conclusi ai lati con sagome di finitura per boiserie retro armadio, larghezza mm 14.

The wall panelling in one piece or superimposed can be accessorized with Code shelves with or without led light (d 11"-11 3/4", thickness 1/4") or with the wiring module for one electric socket or for two usb sockets. The wall panels must be closed at the sides with finishing profiles for wall panelling to the back of the wardrobe width 1/2".

**Boiserie tra due armadi**
**Wall panelling between two wardrobes**

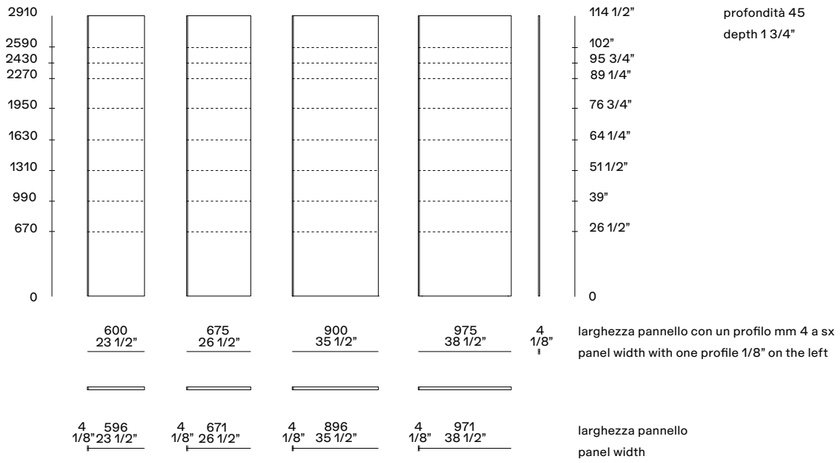

La boiserie può essere attrezzata con mensole, contenitori, modulo di cablaggio per una presa elettrica o due prese usb e mensoloni sospesi Code, con e senza luce a led. I pannelli boiserie devono essere conclusi ai lati con i profili mm 4.

Wall panelling can be accessorized with shelves, storage units, wiring module for one electric socket or for two usb sockets and Code hanging thick shelves, with and without led light. The wall panels must be closed at the sides with 1/8" profiles.

**Dimensioni**
Pannelli boiserie disponibili in quattro larghezze e nove altezze, pannelli spessore 30, staffe di fissaggio a muro ingombro 15.
Tutti i lati a vista delle boiserie devono essere completi di profilo verticale di chiusura. Per boiserie con altezza inferiore o uguale a 1950 è obbligatorio il profilo orizzontale superiore di chiusura.
Per il montaggio in altezza è richiesto uno spazio superiore di 30 mm. Per il montaggio in larghezza è richiesto uno spazio laterale di 30 mm in presenza di profili verticali di chiusura e di 5 mm se non sono previsti profili verticali di chiusura (in nicchia).
Limiti dimensionali: larghezza massima 975, minima 250; altezza massima 2910, minima 600.
Limiti dimensionali boiserie ispezionabile: larghezza massima 975, minima 400; altezza massima 2910, minima 900.

**Dimensions**
Wall panels available in four widths and nine heights, panels thickness 1 1/4", wall fixing brackets thickness 1/2". All the exposed sides of the wall panelling must be completed with vertical closing profile.
For wall panelling with height less than or equal to 76 3/4" the upper horizontal closing profile is obligatory.
For installation in height a space of 1 1/4" is requested. For installation in width a lateral space of 1 1/4" in case of vertical closing profiles is requested,
and of 1/8" if there are no vertical closing profiles (in niche).
Dimensional limits: maximun width 38 1/2", minimum 9 3/4"; maximum height 114 1/2", minimum 23 1/2". Dimensional limits wall panelling with service opening: maximun width 38 1/2", minimum 15 3/4"; maximum height 114 1/2", minimum 35 1/2".

**Soluzioni angolo**
**Corner solutions**

angolo chiuso, profilo di serie sul pannello in battuta
closed corner, standard profile on the panel with visible edge

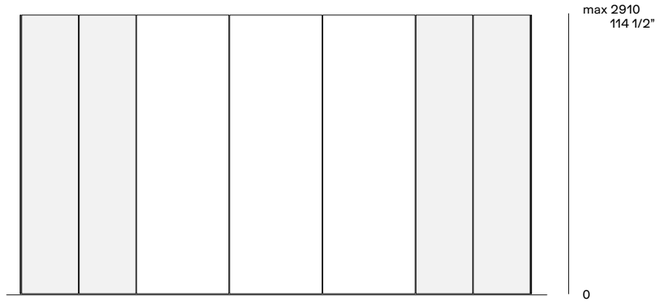

angolo aperto, profilo per angolo aperto e pannelli sagomati
open corner, profile for open corner and shaped panels

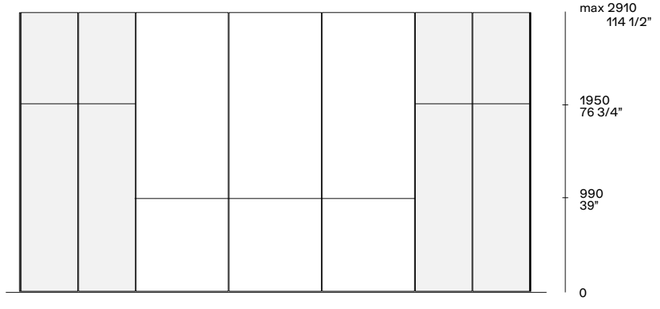

**Boiserie unica altezza**
Si possono creare composizioni con pannelli boiserie fino ad altezza massima di 2910. Si possono accostare pannelli boiserie di diverse finiture.

**Wall panelling in one piece**
Compositions with wall panelling up to a maximum height of 114 1/2" are feasible. It is possible to combine wall panels in different finishes.

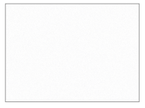

**Boiserie sovrapposte**
Si possono creare composizioni con pannelli boiserie sovrapposti. Si possono accostare, ma non sovrapporre, pannelli boiserie di diverse finiture.
Il pannello inferiore dovrà avere un'altezza di serie, quello superiore un'altezza per differenza con quella totale. Eventuali riduzioni a misura devono essere applicate al pannello superiore rispettando l'altezza minima di 600.

**Superimposed wall panelling**
Compositions with superimposed wall panelling are feasible. Wall panels in different finishes can be put near each other but cannot be superimposed.
The lower panel must have a standard height; the upper panel has a height by difference with the total one.
Any cuts to size must be applied to the upper panel respecting the minimum height of 23 1/2".
