---

## STRUCTURE

### Components

Lexington is a system of structural uprights in aluminium for hooking up shelves, storage units with leaf doors, drawers and flap door without limitation in height. The uprights with adjustable feet can be fixed to the ceiling or to the wall.

### Uprights finishings

### Shelves finishings

## MODULARITY

### Dimensions

To obtain the total width, sum up the widths of the shelves with 2 1/4" of the starting upright, 2" for each central upright and 2 1/4" of the terminal upright. The height of the lower shelf cannot be lower than 9 1/2" from the floor, the upper shelf cannot be lower than 7 3/4" from the ceiling/end of the upright.

### Storage units depth 15 3/4"

### Drawers

Flap door and flap door for tv, storage unit arranged for cable passage on top and back

Leaf door with openable top, leaf door
