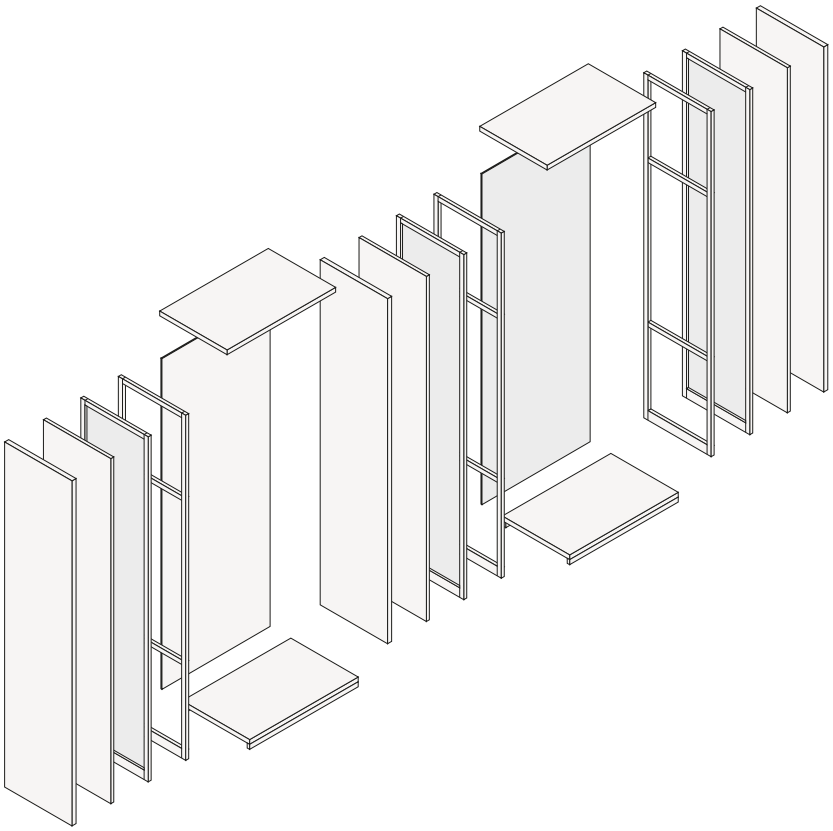
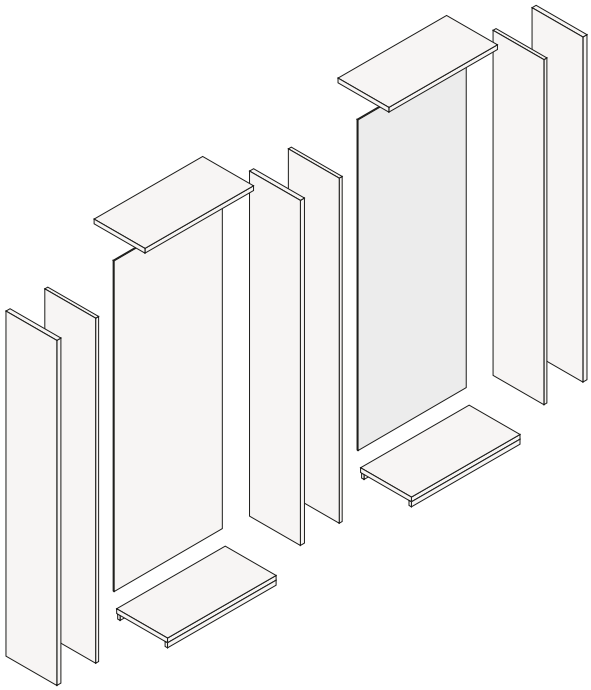
DESCRIPTION

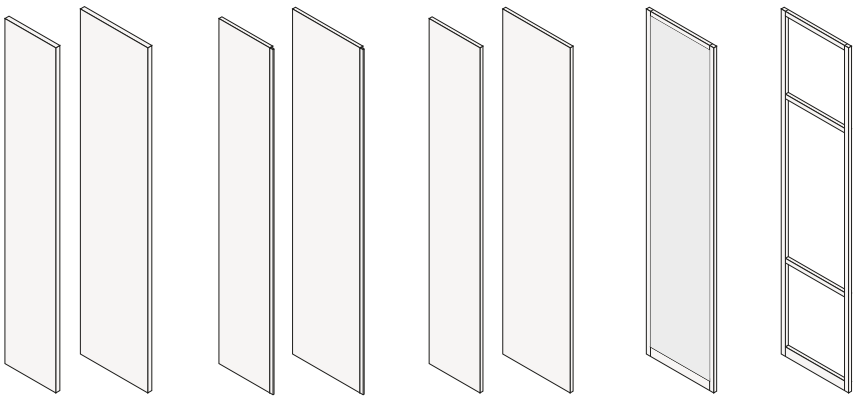
Typology	Wardrobe
Structure	Panel of wooden particles faced with melamine

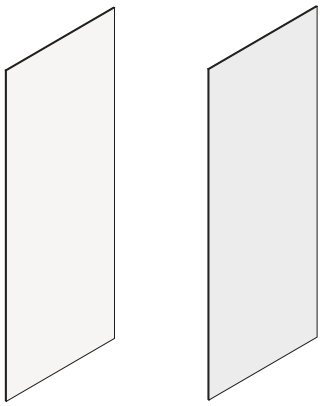
STRUCTURE

Components



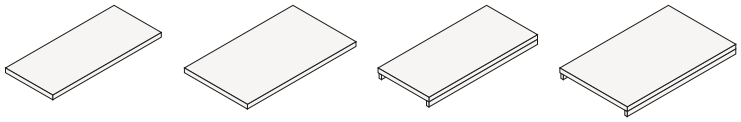




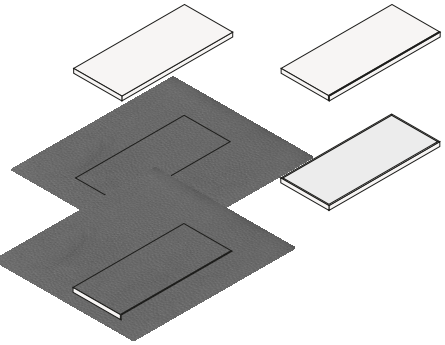


Poliform

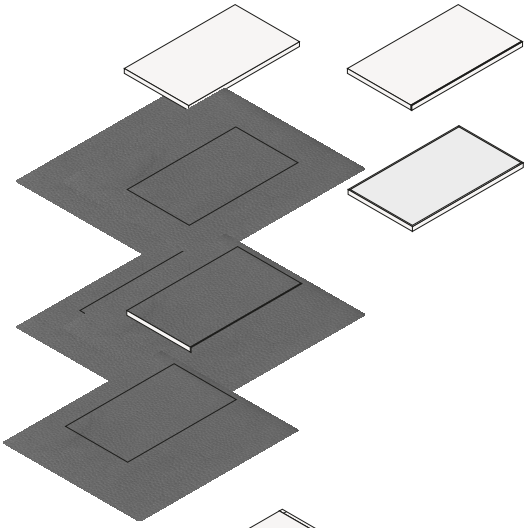
SENZAFINE WARDROBE
R&d Poliform, 2017



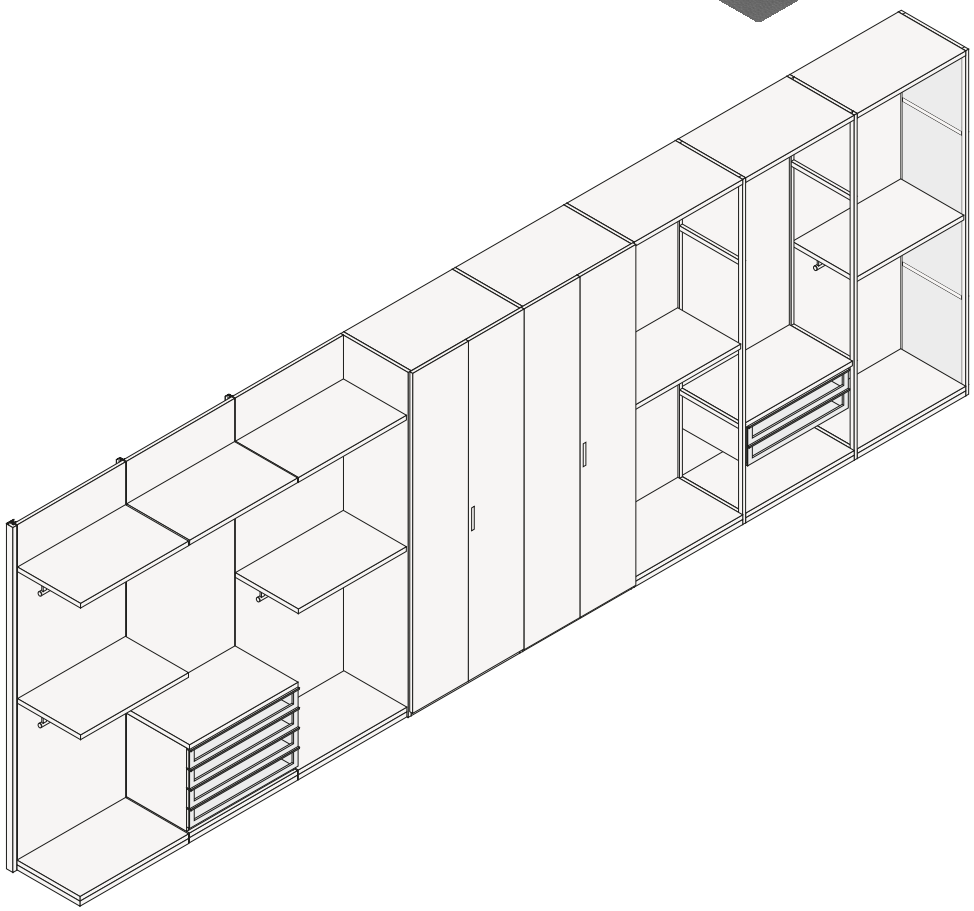
Depth 15 3/4” - thickness 1 1/2”



Depth 21 1/2”- thickness 1 1/2”

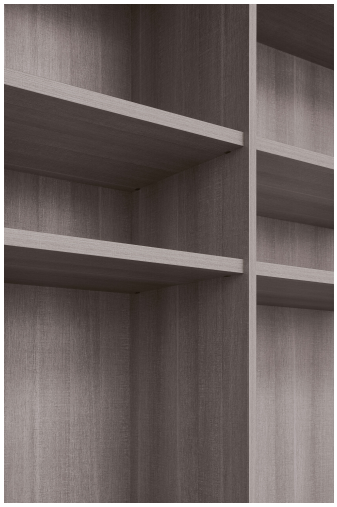


Senzafine - Ubik integration

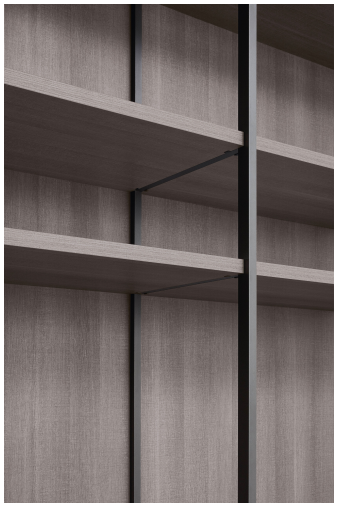


The Senzafine wardrobe and walk-in closet system and the Ubik walk-in closet system have the same modularity in height and share equipment and finishes.

Structure details

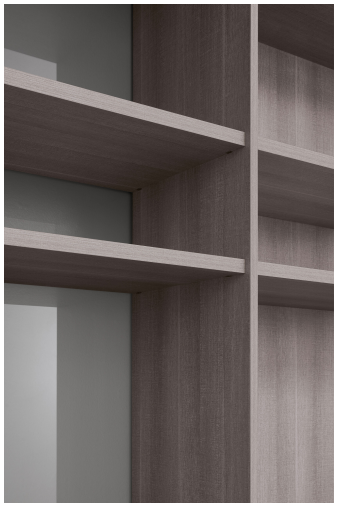


Wood side with wood back panel.



Frame side with wood back panel.

Glass side with wood back panel.



Wood side with wood and glass back panel.

Frame side with glass back panel.

Glass side with glass back panel.

Standard sides drilling for wardrobe and walk-in closet: 3 holes, pitch 2 1/2”.

Sides drillings optional for wardrobe and walk-in closet: at shelf heigth.

Sides drillings optional for wardrobe and walk-in closet: continuous, pitch 2 1/2”.

Edges in matching colour

For wardrobes and walk-in closets with all the sides in wood, in melamine 7 finishings, edges of sides, bases and tops in matching colour with the side.

Edges in melamine champagne

For wardrobes and walk-in closets with at least one frame side or glass side mat painted champagne, edges of sides, bases and tops in melamine champagne.

Edges in melamine ardesia

For wardrobes and walk-in closets with at least one frame side or glass side mat painted ardesia, edges of sides, bases and tops in melamine ardesia.

Plinth filler standard

For wardrobe and walk-in closet. Mat painted ardesia or champagne, height 1 1/2”.

Optional plinth filler

For walk-in closet and island chests of drawers. Mat painted ardesia or champagne, height 2 3/4”.

Cap for base

Available in the colours ardesia or champagne. The perfect installation of every wardrobe is guaranteed by the possibility to level every single column with adjustable feet assembled on the bases, caps are used to hide the adjustable screws.

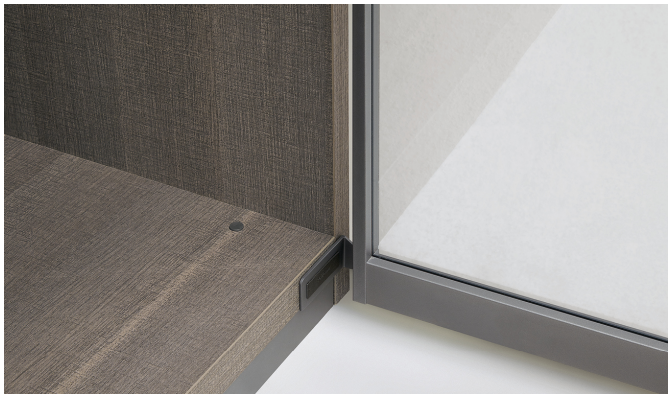
Profile of lateral side for wardrobe

The profile is in the same finish of the door or, in case of glass door, in the same finish of the doorframe. Optional profile finish for Cover in techno leather and Cover in fabric. Not available in hide.

Hinge

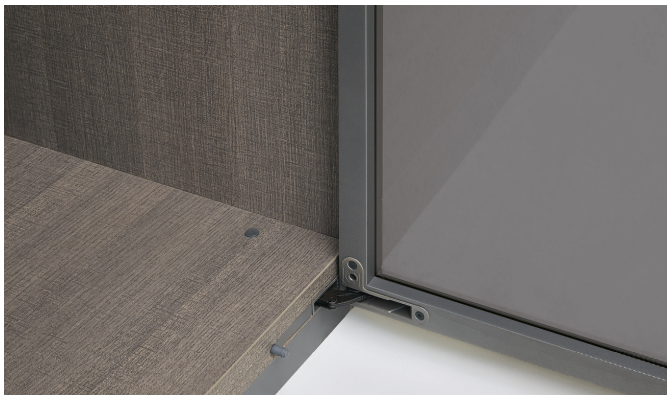
Hinge in ardesia mat painted metal. Standard opening 110°, optional 165°. For all doors of the Senzafine system (except Ego and Fitted doors).

Ego hinge



Hinge in ardesia or champagne mat painted metal, only for Ego door. Standard opening 180°.

Fitted hinge



Hinge in ardesia mat painted metal, only for Fitted glass door. Standard opening 98°.

Special solutions

Leaf corner element

h 76 3/4”-89 1/4”-95 3/4”-102”-114 1/2” w 42 3/4” - d 23”
With leaf door w 18 3/4”, opening 165°. Leaf corner element can be equipped with shelves (except glass shelves) and hanging rails.

Sliding corner element

h 89 1/4”-95 3/4”-102”-114 1/2” w 61 3/4” - d 23”
With sliding door w 38 3/4” . Sliding corner element can be equipped with shelves (except glass shelves) and hanging rails.

Open corner element

h 76 3/4”-89 1/4”-95 3/4”-102”-114 1/2” w 25 3/4” - d 23”
With leaf door w 25 1/4” + fixed door. Corner open element can be equipped with shelves and hanging rails.

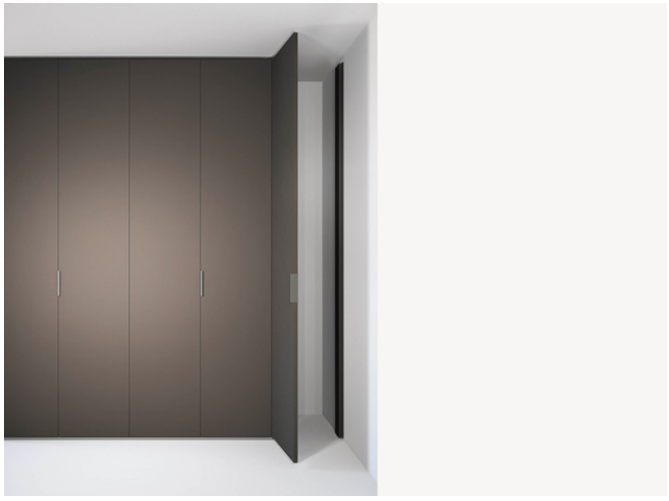
Double end unit

h 76 3/4”-89 1/4”-95 3/4”-102”-114 1/2” w 33 1/2” - d 23”
With leaf doors w 18 3/4”. Double end unit can be equipped with melamine shelves and hanging rails.

Single end unit

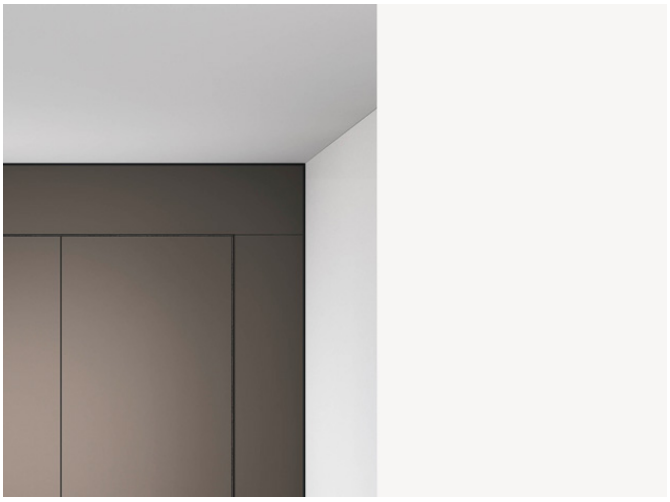
h 76 3/4”-89 1/4”-95 3/4”-102”-114 1/2” w 15”- d 23”
With leaf door w 18 3/4”. Single end unit can be equipped with melamine shelves.

Opening door as filler



Door supplied with aluminium mat lacquered ardesia or champagne plinth, fixed to the door, right or left hinges, wall stop profile. It can be mounted flush with the door or backward by doubling the special side.

Filler



Flush to structure horizontal/vertical, width from 1 1/4” to 11 3/4” height till 114 1/2”. Flush to the door, width from 1 1/4” to 11 3/4”.

SENZAFINE WARDROBE
R&d Poliform, 2017

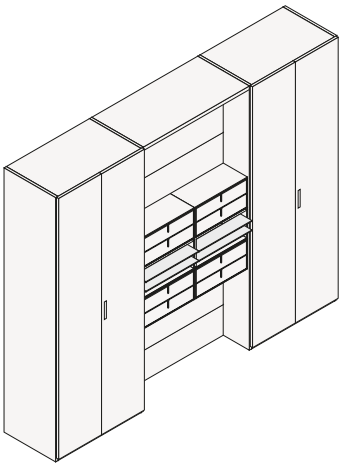
Bridge units with leaf doors, available in 4 heights, with the models: Club, Graffiti, Sand, Canvas, Silk, Skin, New Entry, Stratus. Only available between two wooden sides; with two or more bridge units one next to the other a reinforced bridge bar is available. Maximum width mm 87 3/4” (below bridge).

Cut on measure

Cuts in height, width and depth are possible. In reference to the possible limitations of some doors reductions, see pages 130-163. The solution with mansard doors is possible with the models Club, Graffiti, Sand, Canvas, Silk, Skin, New Entry and Plus.

Poliform

SENZAFINE WARDROBE
R&d Poliform, 2017



Wardrobe compositions with integrated day system Quid. Wall panelling Quid accessorized with open display cases, wooden or glass shelves, fl ap door or small drawers in hide. Pull-out ties hanger

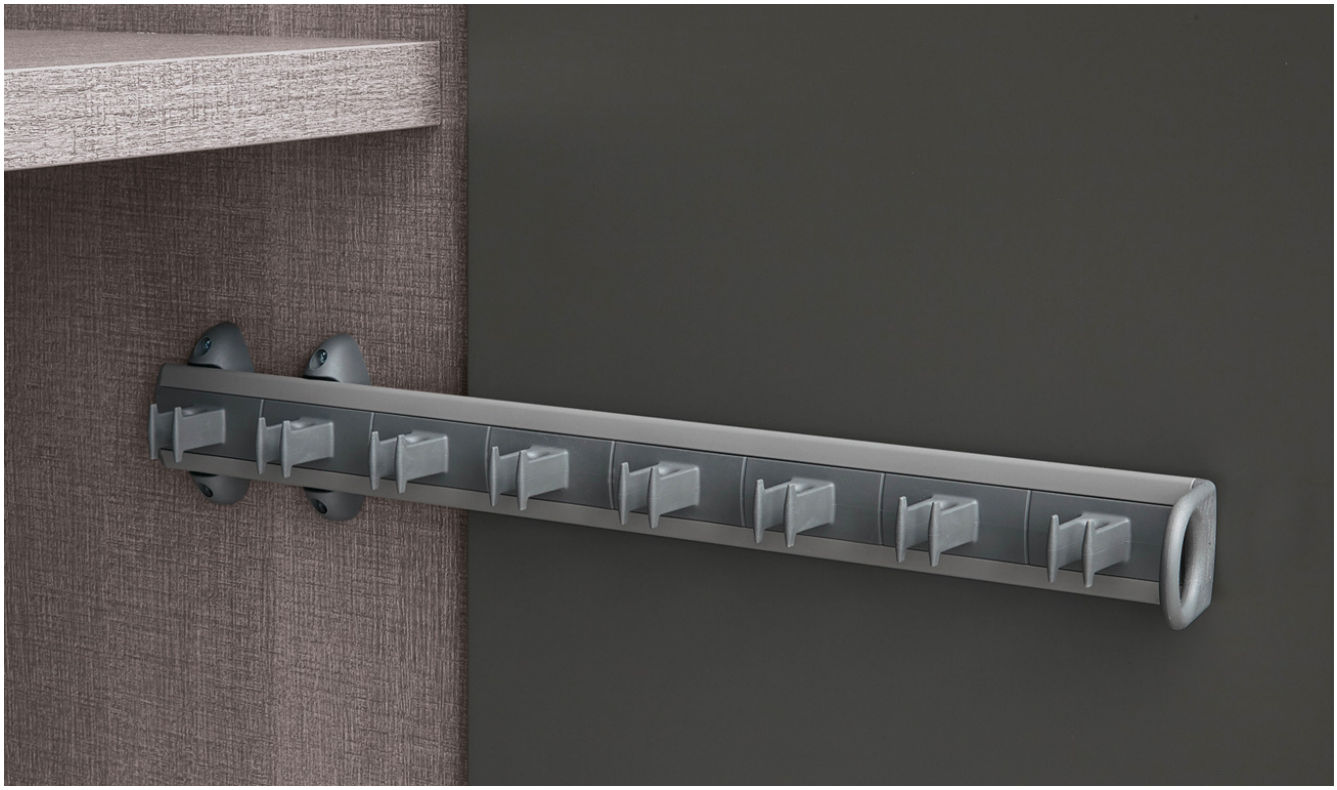
Bar in ardesia finishing, for 32 ties. To be fixed to wooden side. Depth 19 3/4”.

Pull-out belts hanger



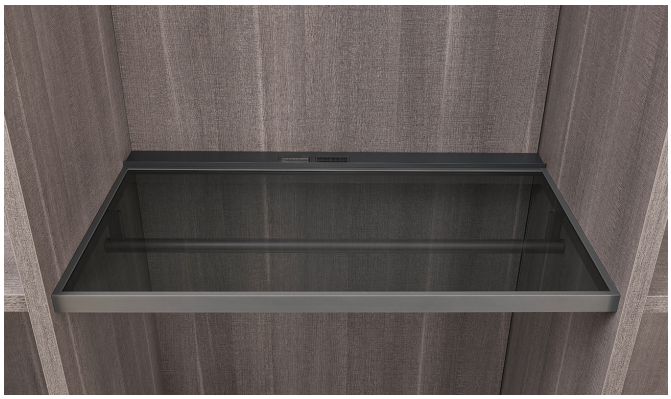
Bar in ardesia finishing, for 16 belts. To be fixed to wooden side. Depth 19 3/4”.

Lighting system

Led lamps with warm temperature 3000°K, 110V or 220V complete with power supply and cables for connection. Available for all the shelf typologies and lengths, also for double end unit and corner unit. Customizations in width are possible. The power supplies are positioned on the top of the first unit on the left. The vertical electrified channel is needed for lighted shelves and for inclined shoe shelves. The vertical channel, in colour ardesia, is positioned on the right side panel. For wardrobes, a sensor positioned on the top allows the lighting by opening the doors.

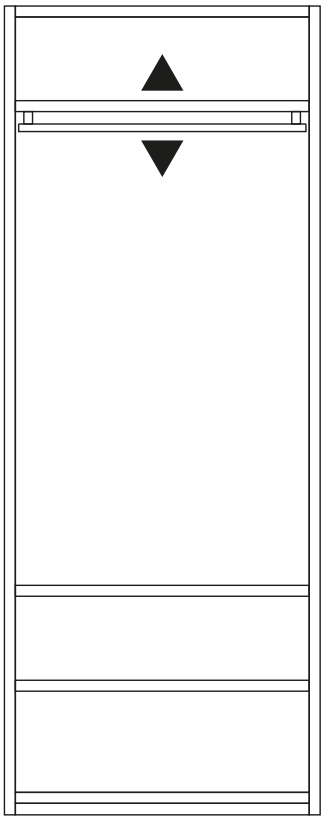
The use of led lamps only for the top shelf does not need the vertical channel. Without vertical channel more shelves with led lamps cannot be added later.

Air sanizer

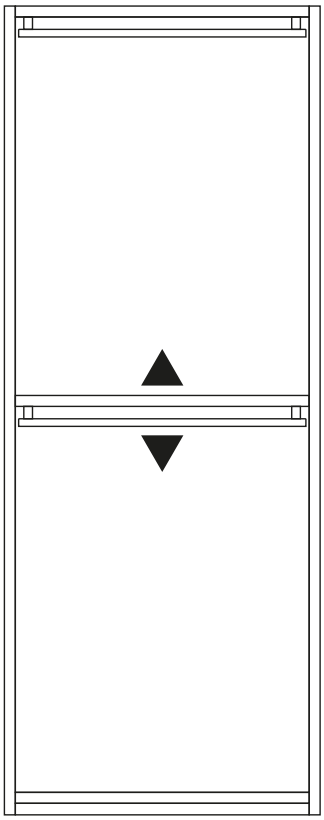


In the finish aluminium mat painted ardesia or champagne, in the same length of the shelf (except w 14 3/4”). Positioned in the rear part of the shelf or a chest of drawers top and integrated in the electrification system of the wardrobe (vertical electrified channel), see page 86. The device is operated by a remote control and deactivated through a switch at the bottom. The sanitizer is available for all the shelf typologies of the system Senzafine. The device treats the air at three stages. At the first stage, the catalyzed filter, which can be regenerated and washable in the dishwasher, retains part of the bacteria present in the air that is moved by the fans in the device. At the second stage, the UVA led neutralizes what the filter has retained. At the third stage, bipolar ionization technology produces and injects millions of positive and negative ions into the wardrobe, which attack bacteria and odours, destroying them and sanitizing the contents inside the wardrobe.

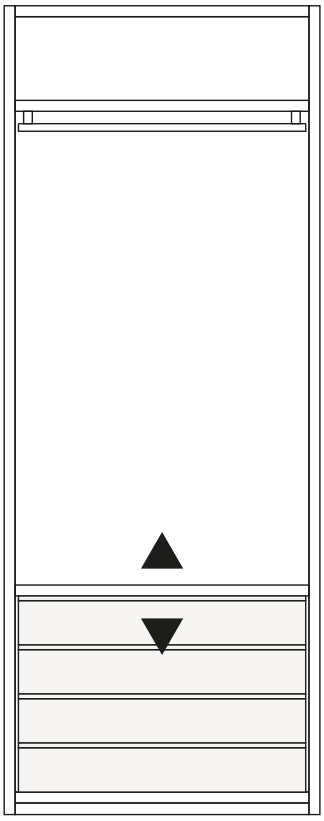
To activate the sanitizer device and to select the programmes, 3, 6 or 9 hours. The same remote control can be used for one or more devices.



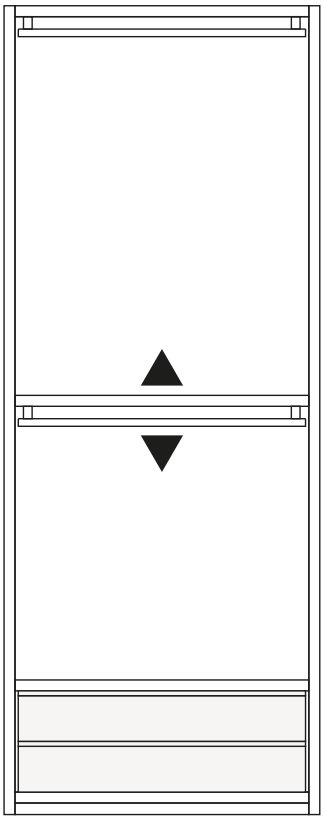
Shelf



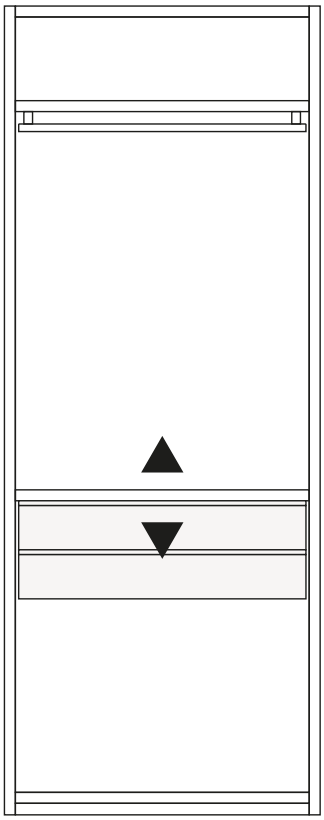
Shelf



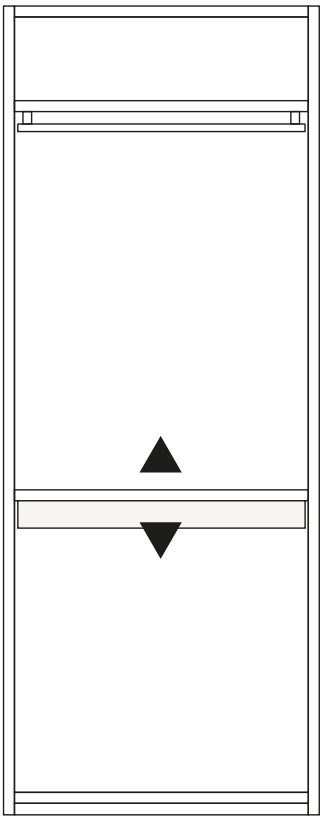
Freestanding
chest of drawers top



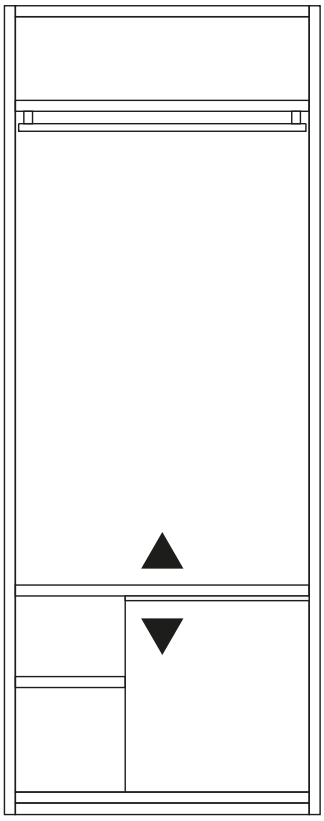
Shelf



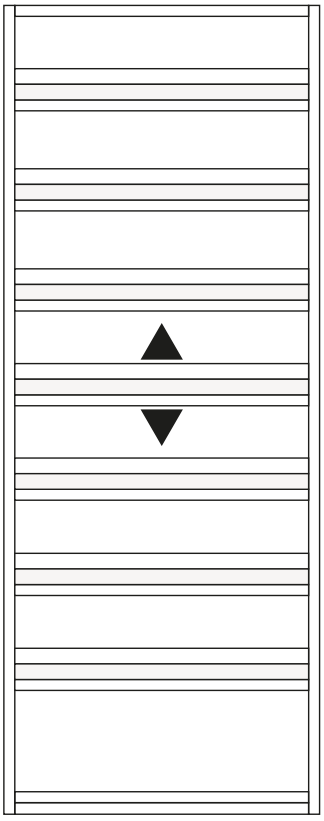
Hanging chest of drawers top



Trousers hanger top

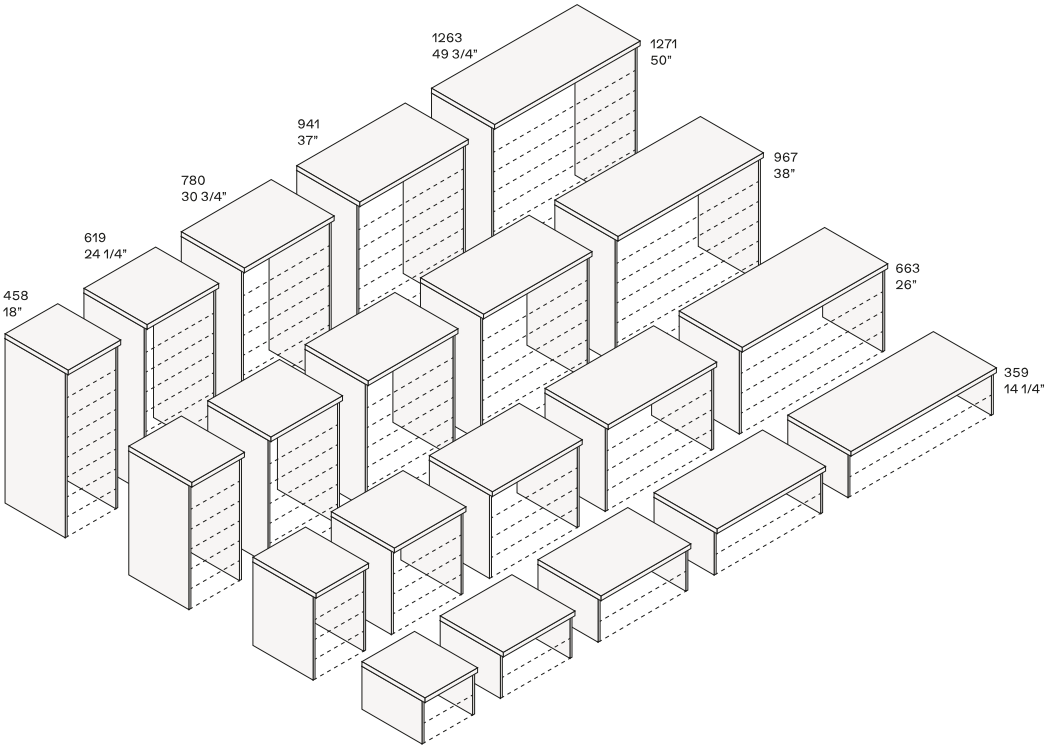


Laundry basket top



Shoes shelf

Drawers



Available in 5 widths and 4 heights, depth 21 1/2”. Can be equipped with drawers and trays. Cuts in width and depth are possible, except glass drawers in width and shoes tray in depth.
